

TITLE: DRIVEWAY SNOW REMOVAL

Approved by Council

Date: December 14, 2010

Revised by Council

Date: November 27, 2018

Driveway Snow Removal Forms shall be submitted prior to October 1 of each year, to allow for a driveway safety inspection.

Application for driveway snow removal can be made by residents who are choosing to remain in their residence and are "Aging in Place" as defined by the Alberta Government. Residents will include this information on their application form and will also include a Medical Practitioner's note, indicating the requirement for home care, if necessary.

The CAO can approve applications for "Aging in Place" on a case by case basis.

Prior to driveway snow removal the resident will sign the application liability waiver. Once approved, the resident will contact the Public Works Superintendent to initiate a drive way snow removal service.

As all roads within the MD's hamlets are plowed on a priority basis, driveways within hamlets will not be plowed. Driveways of residents "Aging in Place" will be plowed in the same order of priority as the road they live on.

Applications and approvals will be confirmed on an annual basis.
